

S3: BERT dual-class Partition SHAP
gold=POS | prediction=POS
It's a bit slow at times but the performances are outstanding.

Target: NEG
logit=-3.5206 | base=-1.9175 | residual=0.00e+00

Target: POS
logit=+3.4425 | base=+1.6780 | residual=0.00e+00

Red increases the target class logit; blue decreases it. Both panels use the same scale.
